QUESTION 1

1.1 Explain the following terms.

- | | | | |
|-------|---------------|---------|-----|
| 1.1.1 | Logic gates | (2 × 1) | (2) |
| 1.1.2 | Logic symbols | (2 × 1) | (2) |
| 1.1.3 | Truth table | (2 × 1) | (2) |

1.2 Answer the following related questions.

1.2.1 Identify the logic gate

(1)

1.2.2 Complete the truth table for the logic gate in QUESTION 1.2.1.

X	Y	Z

(4 × 1) (4)

1.2.3 Design the related circuit using lamps and switching symbols.

(7 × 1) (7)

1.3 What would the following voltage levels represent on a TTL device?

- | | | |
|-------|-----------------------|-----|
| 1.3.1 | Between 5 V and 2,4 V | (1) |
| 1.3.2 | Between 0 V and 0,8 V | (1) |

52)

-4-

1.4

Primary memory and secondary memory are two types of computer memory that differ in their characteristics, functions, and uses.

Name the differences between a primary memory and a secondary memory in the table below.

The table below must be redrawn and completed in your ANSWER BOOK.

Differences	Primary Memory	Secondary Memory
Volatility		
Access speed		
Capacity		
Function		
Usage		

(5 × 2)

(10)
[30]

QUESTION 2

2.1 To ensure successful host-to-host communication, network engineers must adhere strictly to written rules.

State the FOUR rules that apply to different aspects of connectivity. (4 × 1)

(4)

2.2 The seven layers of connectivity of the open systems interconnection (OSI) reference model work together to enable seamless communication and data exchange between devices and a network.

7	Application
6	Presentation
5	Session
4	Transport
3	Network
2	Data link
1	Physical

Briefly explain how each layer functions.

(7 × 2)

(14)

2.3 Through which device(s) can protocols be implemented?

(2 × 1)

(2)

2.4 Explain the function of a computer bus.

(2 × 1)

(2)

2.5 List THREE properties for protocols.

(3 × 1)

(3)
[25]

QUESTION 3

- 3.1 What are the errors at the levels mentioned in QUESTION 2.2 called? (2 × 1) (2)
- 3.2 When do these errors occur? (2 × 1) (2)
- 3.3 How will you know that there is such a problem on your computer? (3 × 1) (3)
- 3.4 How will you access the *Windows Task Manager*? (2 × 1) (2)
- 3.5 What will happen if you press the key (*Windows Task Manager*) twice in succession? (1)
- 3.6 The computer in the admin office of a robotics company gets very hot. You are contacted to rectify the problem.
- 3.6.1 Explain why this computer gets too hot. (1)
- 3.6.2 Write down the steps to solve the overheating problem mentioned in QUESTION 3.6.1. (5 × 1) (5)
- 3.7 Explain the FIVE steps to move a document to a flash disk. (5 × 1) (5)
- 3.8 What is the purpose of the following Windows applications?
- 3.8.1 Disk Cleanup (2 × 1) (2)
- 3.8.2 Compression (2 × 1) (2)
- [25]**

QUESTION 4

- 4.1 Briefly explain a shortcut on a computer. (4 × 1) (4)
- 4.2 Give the shortcut keys for the following:
- 4.2.1 New file (1)
- 4.2.2 Cut (1)
- 4.3 List FOUR steps to create a new file. (4 × 1) (4)
- [10]**

QUESTION 5

- 5.1 You can change the look and the contents of your presentation in many ways, for example, by adding or formatting text, rearranging the slides, changing the colour scheme, inserting pictures, using hyperlinks, and previewing your slide show.
- Explain the difference between *adding text* and *formatting text*. (2 × 2) (4)
- 5.2 Give TWO tips for the effective use of colour in a presentation. (2 × 1) (2)
- 5.3 Presentations can be interactive.
- Explain what you understand under *interactive presentation*. (3 × 1) (3)
- 5.4 What does the acronym URL mean? (1)
- [10]**
- ◇ TOTAL: 100**
