INSTRUCTIONS TO MARKERS

To facilitate marking and moderation, the following must be adhered to:

1. Markers are required to work out the question paper before the memorandum is discussed.
2. Accuracy is marked negatively with a red pen (/). Manipulation is marked with a blue pen (X or ✓) and the manipulation number must be written next to every tick (✓) or cross X (e.g. 1✓/1X). To ensure that candidates are rewarded for tasks done well, e.g. If 3 marks are allocated for accuracy but a candidate made 5 errors, he/she only loses a maximum of 3 marks for accuracy and is still rewarded for the manipulation that was done correctly.
3. Accuracy errors include spelling errors/keying-in errors, omissions and repetitions. Upper case, lower case, line and letter spacing are marked as manipulation errors.
4. To aid with the marking process, it is suggested that a transparency template is made of the breakdown of the marks at the beginning of the marking guideline discussion for each question. All marking on the PRINTOUT (ticks and crosses) must be made in the same position as indicated on the marking guideline template.
5. The following table format can be used to write marks achieved for each question on the PRINTOUT. **(NB: numbers in the table are for demonstration purposes only):**

Write the total possible mark in this line

Write the errors made by the candidate in this line

Write the marks achieved by the candidate in this line

A	M	T
9	12	21
1	2	3
8	10	<u>18</u>

6. The candidate's total marks is written on the cover page of the EXAMINATION FOLDER next to the corresponding QUESTION NUMBER.
7. If the candidate handed in a PRINTOUT, but achieved 0 (zero) for the question, 0 (zero) is written on the cover page next to the corresponding QUESTION NUMBER.
8. If the candidate did not hand in a PRINTOUT, a line is drawn across the block next to the corresponding QUESTION NUMBER.
If a candidate handed in DUPLICATE PRINTOUTS a line must be drawn across the DUPLICATE PRINTOUT, with the term 'DUPLICATE' written across it.

9. All PRINTOUTS must include the candidate's EXAMINATION NUMBER and a CONSISTENT WATERMARK. If a candidate handed in a PRINTOUT without a printed EXAMINATION NUMBER and/or a CONSISTENT WATERMARK, the question must be marked and reported as an irregularity.
 10. All irregularities are marked, and marks are transferred to the COVER PAGE. The code 'IRR' or word 'IRREGULARITY' is written next to the percentage and an irregularity report is completed.
 11. ONLY mark what the marking guideline indicates and do not penalise candidates for automatic formats or styles used for example in MS Office 2007.

2. Title: Font type: Eras Bold ITC✓
3. Title: Font size: 32✓
4. Title: Centre-aligned✓
5. Sub-title: Correctly inserted in upper case✓

POOR TIME MANAGEMENT CAN LEAD TO NEGATIVE CONSEQUENCES

1. Poor academic performance

- Missed deadlines for assignments, projects, and homework.
- Inadequate time for studying and exam preparation, leading to lower grades.
- Difficulty keeping up with lessons, causing a knowledge gap.

2. Procrastination and lack of productivity

- Students waste time on distractions (social media, TV, games) instead of studying.
- Tasks pile up, making them harder to complete.
- Leads to a cycle of delaying important work and struggling to catch up.

3. Poor quality of work

- Rushed assignments and last-minute studying result in low-quality output.
- Less time for understanding concepts, leading to shallow learning.
- Increased chances of plagiarism or copying due to lack of preparation
